## MP- Steel Cabins

MP-Steel Cabins are modular, relocatable or fixed steel cabins/buildings/structures which are made of pre-coated steel sheets and thermally insulated panels. They have the strength of steel, the aesthetic appeal of modern construction, as well as the cost effectiveness of signature MPIL steel structures. MP-Steel Cabins are light weight and light weight and have very effective heat and sound insulation.

A whole range of facilities are required on modern construction sites -from site rest rooms and storage units to offices and marketing suites, our robust, high-quality accommodation can meet every construction application. Every cabin we supply, large or small, is a complete workplace solution - designed to meet your exact requirements. We can provide you with fully-equipped workplaces, with climate control systems, specially-designed office furniture and fittings, security systems, access steps and ramps, plus external features such as canopies and walkways. So, whether you need an open-plan workspace, individual offices, large meeting rooms, a welcoming reception area - or a combination of all of these - we can create your ideal office environment.

MP modular buildings are designed around the principles of quality, comfort and flexibility - and can create spacious workplaces for a range of one to 1000 people. Our technically advanced building system has no interior columns, allowing you to create contemporary, comfortable, welcoming workplaces of multiple use.

## MP-Guard Huts

With increasingly stringent safety regulations coming into force, our secure vandalism-proof security cabins offer the standard of protection you need. Offering the highest levels of fire containment and protection against theft and vandalism – MP-Guard Huts provide a comfortable environment for your security staff.

## MP-Steel Houses

MP-Steel Houses are the low cost solution to the large scale housing needs of rural and infrastructural development. They are available in a vast variety of sizes, shapes, designs to match your specific need. They can be made in apartment-style layout, bunk-bed style lay out or even bungalow-style pattern. MP-Steel Houses are widely used as temporary or long-term accommodation solutions, site accommodation, staff cabins, dormitories, rural establishments as well as remote area residential establishments.
